

DSA Practice Checklist

60 core problems across Array, String, 2D Array, Linked List, and Number topics

#	Topic	Problem	Priority	Done
1	Array	Find largest and smallest element	HIGH	
2	Array	Find second largest element	HIGH	
3	Array	Reverse an array	HIGH	
4	Array	Sort an array	HIGH	
5	Array	Remove duplicates	HIGH	
6	Array	Find duplicate elements	HIGH	
7	Array	Find frequency of elements	HIGH	
8	Array	Find missing number	HIGH	
9	Array	Move zeros to the end	HIGH	
10	Array	Left/right rotate array	HIGH	
11	Array	Find pair with given sum	HIGH	
12	Array	Maximum subarray sum	HIGH	
13	Array	Find majority element	HIGH	
14	Array	Find common elements in two arrays	MED	
15	Array	Find first repeating element	MED	
16	Array	Find first non-repeating element	HIGH	
17	Array	Count even, odd, positive, negative	MED	
18	Array	Find leaders in array	MED	
19	Array	Find equilibrium index	MED	
20	Array	Find subarray with given sum	HIGH	
21	String	Reverse a string	HIGH	
22	String	Check palindrome	HIGH	
23	String	Count vowels and consonants	HIGH	
24	String	Count character frequency	HIGH	
25	String	Find duplicate characters	HIGH	
26	String	Remove duplicate characters	HIGH	
27	String	First non-repeating character	HIGH	
28	String	First repeating character	MED	
29	String	Check whether two strings are anagrams	HIGH	
30	String	Reverse words in a string	HIGH	
31	String	Count number of words	MED	

#	Topic	Problem	Priority	Done
32	String	Find longest word	MED	
33	String	Toggle case	MED	
34	String	Remove spaces/special characters	MED	
35	String	Longest substring without repeating characters	HIGH	
36	2D Array	Find largest/smallest element	MED	
37	2D Array	Sum of all matrix elements	MED	
38	2D Array	Row with maximum sum	HIGH	
39	2D Array	Column with maximum sum	HIGH	
40	2D Array	Main and secondary diagonal sum	HIGH	
41	2D Array	Matrix transpose	HIGH	
42	2D Array	Matrix addition	MED	
43	2D Array	Matrix multiplication	HIGH	
44	2D Array	Search element in matrix	MED	
45	2D Array	Spiral traversal	HIGH	
46	Linked List	Create and traverse linked list	MED	
47	Linked List	Insert node	MED	
48	Linked List	Delete node	MED	
49	Linked List	Find length	MED	
50	Linked List	Search element	MED	
51	Linked List	Reverse linked list	HIGH	
52	Linked List	Find middle node	HIGH	
53	Linked List	Find nth node from end	HIGH	
54	Linked List	Detect cycle	MED	
55	Number	Prime number	HIGH	
56	Number	Palindrome number	HIGH	
57	Number	Armstrong number	HIGH	
58	Number	Fibonacci series	HIGH	
59	Number	GCD and LCM	HIGH	
60	Number	Reverse number / sum of digits	HIGH
